

Procedure Consent Form

Client/Owner: _____ Cell: _____

Patient/Pet's Name: _____ Breed: _____

Sex: _____ Age: _____ Color: _____

I (please print) _____, am responsible for the above described animal and have the ability to give you my permission to receive, prescribe for, treat and /or operate upon my pet. I assume financial responsibility for all fees incurred while under the care of Assumption Animal Hospital.

I hereby authorize the following procedure(s): _____

It is understood that all reasonable precautions against injury, escape or death of my pet will be used, but you will not be held liable or responsible in any manner in connection therewith as it is implicit that I assume all risks. I acknowledge that there are certain risks to anesthesia that could involve serious bodily injury or death to my pet and that these risks are present in any procedures that require a general or intravenous anesthetic. I agree to the use of anesthesia as considered necessary and advisable by the veterinarian.

Yes, I want all measures taken to revive my pet in the event that my animal requires emergency drugs and/or CPR. I understand that I am responsible for any additional fees associated with life-saving measures.

No, do not resuscitate my pet in the event of an emergency.

_____ (please initial) I am aware that if the practicing veterinarian feels the need to treat my pet with **Capstar** for fleas while in the hospital, that **I am responsible for the cost of the treatment.** (\$6.90 - \$7.15/pill)

After carefully reading the above, I have signed in agreement.

X _____ Date: _____

Legal Owner or Responsible Party

ADDITIONAL SERVICES – Please read carefully.

Our greatest concern is the well-being of your pet, especially during anesthesia. Prior to anesthesia, our staff will obtain a complete history of your pet, and the veterinarian will perform a complete physical examination. It is strongly recommended for your pet to have pre-anesthetic blood work. This bloodwork is a basic CBC and 6 panel blood chemistry. We can evaluate parameters such as liver and kidney function/health to make sure your pet is a good candidate for anesthesia. If all of the tests are normal, we can proceed with a greater degree of confidence and we will have established an excellent set of baseline values to use and compare against should your pet become ill in the future.

Yes, I agree to the recommended pre-anesthetic bloodwork. **This is an additional cost of \$65.**

No, I decline the pre-anesthetic bloodwork.

OPTIONAL SERVICES - Performed while your pet is under anesthesia. (please initial)

_____ **Nail Trim** (\$10.00)

_____ **Basic Ear Cleaning** (\$10.00)

_____ **Microchip Service** (\$40.00)
